

# I International Symposium on Nursing and School Health & V Congreso Nacional de Enfermería y Salud Escolar

## INTRODUCTION

The **I International Symposium on Nursing and School Health**, has as an objective to become a meeting point for all those school nurses, health professionals and health associations who work and promote school health, universities offering school nursing degrees and programmes, other professionals working at educational centres and those who might find this event interesting.

We want to get familiar with each country's experience regarding school nursing. We want to know about the way they work, how they are organized, how do they face health emergencies, how is health education and health promotion approached in schools, without forgetting the crucial work and rapport between the professionals involved.

This Symposium is hosted by the **International Association of School Nurses & Health Promotion (ISNA)** and the **Spanish Scientific Association of Nursing and School health (ACEESE- Asociación Científica Española de Enfermería y Salud Escolar)**. It's held along the **V National Congress on Nursing and School Health** to know, interact and reflect on school nurses' health promoting and caring roles. Likewise, to establish lines of collaboration and work between all school nurses in the world; to discuss and agree on proposals that help improving students' health in school, as well as the impact of health promotion in the communities where the schools are located.

This Symposium will be the ideal place to share knowledge, experiences and scientific evidence of our work as school nurses. We seek to know the results obtained from nurses around the world, discuss and agree on the creation of a working network between professionals at an international level to make information, documents and guidelines available in every country, making possible for all school nurses to offer quality assistance to the entire educational community.

We would like you to attend and participate presenting a poster, oral presentation or as a speaker in one of the debate tables during this Symposium.

**Dra. Gràcia Soler Pardo**  
Presidenta ISNA

March 23, 24 and 25, 2022

Program schedule  
15 h – 20 h (CET)
